

# Demon's Night

## Cannibal Corpse

[Originally performed by Accept] Sparks - the eyes of fire  
Flying high in the night  
Storms - the arms of evil  
It's gonna take your life You know the bats crying  
Hell bent for the death  
Rain - the tears of the devil  
Gonna lay you to rest Rolling a thunder - a curse on that night  
We've got your number - no use to hide You - you've lost your freedom  
To the masters of force  
Ride on the waves of magic  
Dark nights will be your course  
Rolling a thunder - a curse on that night  
We've got your number - no use to hide Demon's night - no way out  
Demon's night - the angels fight  
Demon's night - cries of pain  
Demon's night  
Demon's night - a night to die Lights - blinding your mind  
Like a flash out of hell  
Sounds - that no one will hear  
It's a demon's bell Look in the face of horror  
It's a dangerous night  
Scream for your mother's children  
You've lost your human right Rolling a thunder - a curse on that night  
We've got your number - no use to hide  
Demon's night - no way out  
Demon's night - the angels fight  
Demon's night - cries of pain  
Demon's night  
Demon's night - a night to die Rolling a thunder - a curse on that night  
We've got your number - no use to hide Demon's night - no way out  
Demon's night - the angels fight  
Demon's night - cries of pain  
Demon's night  
A night to die
