I'll Drink to That

Outasight

Walking in the rain trying to clear my head The city in that never sleeps, gotta find me a bed I'll close my eyes and try to escape

The lonely nights and the minimum wage

New York City sounds good right nowTimes are hard so let's drink to we what we've got Take a shot and have some faith

Singing these long days will be they'll worth it when we're older

Weight is off our shoulders

I'll drink to that I'll drink to that

I'll drink to that

Walking through the town that made me a man

Everyone here, tries the best that they can

When the weekend comes we pour our hearts in a glass

Raise it up and cheers May the good times last

New York City sounds good right nowTimes are hard so let's drink to we what we've got Take a shot and have some faith

Singing these long days will be they'll worth it when we're older

Weight is off our shoulders

I'll drink to that I'll drink to that

I'll drink to that So pour another round

This one's on me

A toast to our love and our family

And when the day grows old

May we look back and say

That we had our fun

We lived while we're young

Times are hard so let's drink to we what we've got

Take a shot and have some faith

Singing these long days will be they'll worth it when we're older

Weight is off our shoulders

I'll drink to that Take a shot have some faith

I'll drink to that

We got to live while we're young

I'll drink to that Take a shot have some faith

I'll drink to that

We got to live while we're young

I'll drink to thatNew York City sounds good right now
