

Miki Dora

Amen Dunes

Getting on fine
Catch the next wave
Get the mood right
Darken the wayCoasting all day
Coasting all day
The way you're going
We know what you'll sayThe waves are gone
The waves are gone
The waves are gone
Said man I'll goPride destroyed me man
Til it took ahold of me
And I feel it when I cry
I can feel it in my dreams
Miki Dora
Taking your time
Waves are gone
Waves are gone1963
We were up on North Beach
And you're copping all my tricks, man
But you don't do it like meSitting on the pier
Sipping on my beer
I come upon a vision
When Mary comes to meSilver golden waves
And chills that keep me clear
You all recall my name
But don't mean a thing to me
Miki it's all fine
Catch the next wave
Miki Dora
Darken the wavesThe waves they are gone
The waves they all gone
The waves are gone
The waves are gonePride destroyed me man
And I didn't know the deal
Said I'm gonna cry
Scaring the devil in meShouldn't have gone
Shouldn't have gone
But didn't I discover the difference
It didn't come to meGive nothing, take
Slid along the wave
Could not suffer existence
It wasn't meant to beGetting on fine

Rolling on me
Still enough time
To roll around with me Roll around with me
Roll around with me
Roll around with me
Roll around with me
Roll around with me
Roll around with me
Roll around with me
