

Violator

Ra

A war against time destined to lose
I'll just sit and watch TV
A magical force, hypnotic drool
I take in all that I can see
I'm seeing chains, now hold me down
The recline of modern man
Neatly displayed and bundled lies
An hourglass and I'm the sand
Generator, decimator, ah
Universal, devastator, ah
A cyber involved diversity
So straighten up and go online
Sexual drive intensity
The darkest pit that you can find
I'm holding this key to be erased
Put your life into a disk
Strainful powers, social disgrace
Wages war with little risk
Generator, decimator, ah
Universal, devastator, ah
Substitution, evolution, ah
Electronic, absolution, ah
Yeah
Oh, my head is always lost
And always changing mind
What's wrong just feels so right
I think I'm going blind
Generator, decimator, ah
Universal, devastator, ah
Substitution, evolution, ah
Electronic, absolution, ah
Oh
Oh
