

Rejoice

The Emotions

If the things you do are not pleasing you
It's time to take another hard point of view
You take the things you've and learned
All that you know are real
And what you feel is your first concern
Make the sacrifice and make it right
Rejoice, Rejoice in the things you know are right
You better rejoice
Make you feel real good inside
There may be times oh when you're in doubt
About the way, and just how to work it all out
You'll find the things you seek are within your reach
Your mind conceive, your heart believe it
Now that you've sacrificed and you've paid the price to make a better way in your life today
Rejoice
You can see the light, yes you can
Ah Yeah
Rejoice
Ahh Yeah, yeah
There may be times oh when you're in doubt
About the way, and just how to work it all out
You'll find the things you seek are within your reach
Your mind conceive, your heart believe it
Now that you've sacrificed and you've paid the price to make a better way in your life today
