

# Rejoice

## The Emotions

If the things you do are not pleasing you  
It's time to take another hard point of view  
You take the things you've and learned  
All that you know are real  
And what you feel is your first concern  
Make the sacrifice and make it right  
Rejoice, Rejoice in the things you know are right  
You better rejoice  
Make you feel real good inside  
There may be times oh when you're in doubt  
About the way, and just how to work it all out  
You'll find the things you seek are within your reach  
Your mind conceive, your heart believe it  
Now that you've sacrificed and you've paid the price to make a better way in your life today  
Rejoice  
You can see the light, yes you can  
Ah Yeah  
Rejoice  
Ahh Yeah, yeah  
There may be times oh when you're in doubt  
About the way, and just how to work it all out  
You'll find the things you seek are within your reach  
Your mind conceive, your heart believe it  
Now that you've sacrificed and you've paid the price to make a better way in your life today
