

Funeral (feat. Afrojack, Twista)

Huey Mack

I like two things, women and good drinks.
If i have that, imma be alright.
I dont know what this night will bring.
But i know what imma think
if this was my last day,
and i died the night.
You should play this in my funeral
ohoh
p-p-play this in my funeral
uooo'oooh
You should play this in my funeral
ohoh
p-p-play this at my funeral
uooo'oooh
You should be me next to two bad women
Know i went out without a single fuck given
You should play this in my funeral
ohoh
p-p-play this in my funeral
Now pull your mother fucking drinks out!
Now pull your mother fucking drinks out!
Cold drinks and bad bitches
my favourite things
Going out like every night
I swear i live the dream
Im young as hell
i got a lot to learn
But im young as hell so
im not concernd
plus i got a plunt to burn
where they brought our asses burn
yeah
young and dumb
and living life like every night
i feel like getting a real job
but normal life is over high five
middle finger all up in the club
like a lot of shit
i cant die and tell i crossed Selena
