

Counting On Love

[Matt McAndrew](#)

I'm counting on love
To save me from this life I'm living
I'm counting on love
To show me everything I'm missing
One more time for love
One more time for love
I'm counting on love
To save me from this life I'm living Wow little mama
You got the sugar now
No little mama
Ain't gonna miss around
Ain't gonna miss around
Ain't gonna miss around
Sweet dreams never came to me
So I stay up every night
Get lost in the city street
Try to find a different life
It's not that it meant a thing
But it's a temporary high
It's a temporary high
Just a temporary high I'm counting on love
To save me from this life I'm living
I'm counting on love
To show me everything I'm missing
One more time for love
One more time for love
I'm counting on love
To save me from this life I'm living
Wow little mama
You got the sugar now
No little mama
Ain't gonna miss around
Ain't gonna miss around
Ain't gonna miss around One way, fast lane.
