Devour (Live from Washington State)

Shinedown

Take it and take it all

Take it and take it and take it until you take us all

Smash it and crash it

and thrash it and trash itThey're only toys

Try it you'll like it don't hide it don't fight it, just let it out

Steal and shoot it and kill it or take another route

Take it and take it and take it

You know they're only toys

Devour Devour

Suffocate your own empire

Devour Devour

It's your final hour

Devour Devour

Stolen like a foreign soul

Devour Devour What a way to go

You want it you want it you want it

Well here it is

Everything everything

Isn't so primitive

Take it and take it and take it

and take it and take it all

Nobody nobody wants to feel like this Nobody nobody wants to live like this

Nobody nobody wants a war like this

Devour Devour

Suffocate your own empire

Devour DevourIt's your final hour

Devour Devour

Stolen like a foreign soul

Devour Devour

What a way to go

What a way to go

Diving down

Round and rounddiving down

round and round

Devour Devour

Suffocate your own empire

Devour Devour

It's your final hour

Devour Devour
Stolen like a foreign soul
Devour Devour
What a way to go
Devour Devour
Suffocate your own empire
Devour Devour
It's your final hour
Devour Devour
Stolen like a foreign soul
Devour Devour
What a way to go
What a way to go
