

It's All Good

Cold

Take another motherfucking hit of LSD
Let all the love inside the world belong to you
Well, I can't understand just why you went away
Too young to feel the pain and bitterness of love Well, I can never understand a motherfucking
word you'd ever say
And all the people that you hurt came down on you
And I can't understand just why you went away
I sat and waited for the day you'd come back home But it was all good
But it was all good
But it was all good
But it was all
Take a loaded gun and blow my fantasy away
Turn off the lights and shine the spotlight down on you
Well, I could never understand a motherfucking word you'd ever say
And all the people that you hurt came down on you
Well I can't understand just why you went away
I sat and waited for the day you'd come back home But it was all good
But it was all good
But it was all good
But it was all good
You were
My hope
My God
My love
My faith
My God it's over
It's all good
Til the world came crumbling down
Oh, well I said mother: it's all good
Til the world came crumbling down
Oh, well I said mother: it's all good
Til the world came crumbling down
World came crumbling
Crumbling
Crumbling
Crumbling But it was all good
But it was all good
But it was all good
But it was all
