

# Green

## Cavetown

This is erosion  
Grinding up rocks with your molars  
A big fish swims past your rod  
You can't catch it, it's far too fast  
Deep hook marks in rubber lips  
I see your eyes in the flowers  
I'll pick a bunch for your room  
Green and blue to match your pictures  
You looked so good in green  
I hope you're well  
And you look so good with him  
And I'm proud of you still  
I miss your perfect teeth  
I was too blunt  
I hope you feel happy  
That's all I want  
Mess in the kitchen  
I was so disappointed  
I guess I got to my head  
And I was too young to understand it  
I get it now that it's too late  
I never stopped feeling guilty  
I'm over it, I promise that  
I just gotta sing it out of me  
You looked so good in green  
I hope you're well  
And you look so good with him  
And I'm proud of you still  
Take care of my shirt  
Warm and red  
I hope you think of me  
Still as your friend  
I hope you love yourself  
Your body and heart  
I hope you feel happy  
That's all I want
