No fake love, no fake friends

Just 30 in the FN

Is you mad?

Cause I'm getting cash

And in my place

Bought a new Wraith

She in my face

I want her head

I want her legs

I want a redhead

I want her head

I want her neck

I want her legs

Don't even beg

We can fuck on the floor

We can fuck in the shower

Hey, your friends at the door

Tell 'em give you an hourI go deep in her throat

Keep that shit on the low

Don't nobody else know

That's our business fasho

We can fuck on the counter

I keep takin' these downers

Pop me a Addi, a Percocet, pour me a four

Baby, we grown, we could fuck on the floor

I'm gettin' money

That's why they mad

That ain't my fault

Nigga, I'm a boss

Get white chalked

Playin' with an O.G

I got bags

These niggas owe me, they know me

Standin' in the kitchen and workin' my wrists

I made a duece, turned to a nick

I make a nick, turned to a nine

I made a nine, turned to a split

You know the rest, I made a split, turned to a brick

We in this bitch, we got it lit

We got them sticksIs you mad?

Cause I'm getting cash

And in my place

Bought a new Wraith

She in my face

I want her head

I want her legs

I want a redhead

I want her head

I want her neck

I want her legs
Don't even beg
We can fuck on the floor
We can fuck in the shower
Hey, your friends at the door
Tell 'em give you an hour
