

# Jungle (feat. JayDaYoungan)

## Yungeen Ace

[Intro: Yungeen Ace]

Jungle, in the jungle

Every day I'm takin' chances

All my life I'm steady gamblin'[Chorus: Yungeen Ace]

I live in this jungle, every day I'm takin' chances

With my life I'm steady gamblin', you don't understand me

Clutchin' tight 'cause they all want to kill me

I'm up in this jungle with lions and tigers and bears

The life that I'm livin', ain't nothin' fair

Gotta fight to survive, make it out of here

I live in this jungle, every day I'm takin' chances

With my life I'm steady gamblin', you don't understand me

Clutchin' tight 'cause they all want to kill me

I'm up in this jungle with lions and tigers and bears

The life that I'm livin', ain't nothin' fair

Gotta fight to survive, make it out of here

I'm up in this jungle, I'm up in this jungle

I'm up in this jungle like King Kong

I live for today, I might die tomorrow

I'm up in this jungle, I'm up in this jungle

I'm up in this jungle like King Kong

I live for today, I might die tomorrow

[Verse 1: JayDaYoungan]

Every day I be clutchin' my pole

I'm from the south so I'm throwin' fours

I never did give a fuck 'bout a ho

Just loved gettin' money and rockin' my shows

After the bread, I'm in love with the loaf

Ridin' the block, bust street 'round post

They all in my business, I tell 'em get ghost

The fuck was you at when I needed you most?

Want cancer, let me know

Pull up, hop out, let it blow

Two times shit, we on go

Still screamin' free my bros, yeah

They juicin' off the road, yeah

The streets turned my heart cold

Shit can get wicked, I stay with extensions

Can't fuck with you niggas, no love for you bitches

Lookin' for me, bitch I'm up in the trenches

We got what you need, just pull up and come get it

Go through the most but I still gotta get it

Won't ever give up, know they want my position  
All up in traffic, I keep the stick with me  
Got too much to lose, no you won't catch me slippin'  
[Chorus: Yungeen Ace]  
I live in this jungle, every day I'm takin' chances  
With my life I'm steady gamblin', you don't understand me  
Clutchin' tight 'cause they all want to kill me  
I'm up in this jungle with lions and tigers and bears  
The life that I'm livin', ain't nothin' fair  
Gotta fight to survive, make it out of here  
I'm up in this jungle, I'm up in this jungle  
I'm up in this jungle like King Kong  
I live for today, I might die tomorrow  
I'm up in this jungle, I'm up in this jungle  
I'm up in this jungle like King Kong  
I live for today, I might die tomorrow[Verse 2: Yungeen Ace]  
I'm livin' today, I might die tomorrow  
I'm goin' out like King Kong  
Before I go I'ma kill 'em all  
They post on the block, we gon' spin 'em all  
He said that we beefin', we slidin' on him  
Keep a gun concealed, he can die any moment  
Won't catch me slippin', bitch that iron on me  
See an opp then open fire on him  
All of my niggas gorillas, we load up them cutters and we come and get you  
Not playin' with these niggas, we all 'bout that issue  
That Glock filled with hollows, that bitch got extensions  
If I up I'ma shoot, I won't miss you  
I'm a certified youngin, say bitch I'm official  
Step foot in that water and I swear I'ma hit you  
Step foot in that water and I swear I'ma fish you  
I'm in this jungle where we kill to survive  
Watch for your surroundings if you tryna make it alive  
I'm in this jungle where we kill to survive  
Watch for your surroundings if you tryna make it alive[Chorus: Yungeen Ace]  
I live in this jungle, every day I'm takin' chances  
With my life I'm steady gamblin', you don't understand me  
Clutchin' tight 'cause they all want to kill me  
I'm up in this jungle with lions and tigers and bears  
The life that I'm livin', ain't nothin' fair  
Gotta fight to survive, make it out of here  
I'm up in this jungle, I'm up in this jungle  
I'm up in this jungle like King Kong  
I live for today, I might die tomorrow  
I'm up in this jungle, I'm up in this jungle  
I'm up in this jungle like King Kong  
I live for today, I might die tomorrow
