

4 Leaf Clover (feat. Steve Lacy)

Ravyn Lenae

I get jealous
When you don't wanna see me around
You say we're friends and slow down (Woo)
I get jealous
When other girls are calling your phone
Why won't they leave you alone?
'Cause I'm scared
Scared to commit to relationship
Or breaking our bond and our friendship
I don't wanna fuck this up
No, no, no, these other girls are distractions
I don't really be taking no action
So need to jump and bug
Hey, we're meant to be, whoa
One day you will see
Where o where is my four leaf clover?
What I gotta do to give in to you
I just don't want what we got to be over I get jealous
When you don't wanna give this a chance
But then you wanna hold hands
(what do you want?)
I get jealous
When you can move around how you please
(Ooo, you never thinking of me)
You only call me when you need
Me, I keep running to your feet
Boy I'm worthy but you treat me like I'm not
And you don't know how much I plea
What did I do to make you mean
Say you don't want to hurt my feelings but you are
Hey we are meant to be whoa
One day you will see
Where o where is my four leaf clover
What I gotta do to give in to you
I just don't want what we got to be over You need no other
I'll be your lover
Take me 'cause I've been down down down down
We need each other
Please use my number
You see me
I've been down down down down down down I'm looking through the window for a breeze
I need, a four leaf, four leaf

Don't think I cannot be your centerpiece
I need, a four leaf, four leaf
I can see you're lost
Come get your baby (baby)
I don't care the cost
Don't need a friend, I wanna be your lady
Hey we are meant to be whoa
One day you will see
Where o where is my four leaf clover?
What I gotta do to give in to you
I just don't want what we got to be over
