

Rhyme & Reason

Dave Matthews Band

Oh well oh well so here we stand
But we stand for nothing
My heart calls to me in my sleep
But can not turn to it
'Cause I'm all locked up in this
Dark place
And I do not know I'm good as dead
My head aches, warped and tied up
I need to kill this pain My head won't leave my head alone
And I don't believe it will
Until I'm dead and gone
My head won't leave my head alone
And I don't believe it will
Until I'm six feet underground
How long I'm tied up
My mind in knots
My stomach reels
In concern on what I might do or
What I've done
It's got me living in fear
Well I know these voices must
Be my soul
I've had enough
I've had enough of being alone
but I've got no place to go My head won't leave my head alone
And I don't believe it will
Until I'm dead and gone
My head won't leave my head alone
And I don't believe it will
Until I'm six feet underground
In my grave
Locked in
Trapped, shut and wired in my grave
Leave on
Leave it to me to waste here I'm down here and again
My mind in knots
and my stomach reels
In concern on what I might do or
What I've done
It's got me tired of living in fear
but what do I drink and drink and smoke
to reason, to reason with my head

and away
Needle to the vein
Needle to the vein
Take this needle from my vein my friend I said My head won't leave my head alone
And I don't believe it will
Until I'm dead and gone
My head won't leave my head alone
And I don't believe it will
Until I'm six feet underground In my grave
Lying
Trapped, shut and wired in my grave
Reason, my reason take my head off
this terror outraged
Oh comeback come on
say my mind's all wiped clean
but the needle is my great escape
Oh I feel caught in time
My head now leaves me behind
My body will falls cold dead
I see heaven
