Wire

Persuading analysts
Engaging catalyts
Employing empathy
Avoiding chemistry
Pushing out envelopes
Enhancing isotopes
Refining registration
Avoiding isolation
Surfing without a sail
Banged up or out on bail?
Flying without a pill
Break out exerting will
Swerving and gently rolling
Slipping and softly falling
Review and regulate
Rebuilt and recreate
Mathematically precise
React, evolve, entice
Regroup then dissipate
Annoy exasperate
Linked hands and strolling through
Locked horns with abject crew
Winging and heading blind
With nothing left behind Avoid analysis
Employ a catalyst
Persuade with empathy
Engaging chemistry
Pushing the envelope
Mutating isotopes
Insist on registration
Persist in isolation
Hung out without a care
Swerving without a spare
Banking without a spill
Climbing a higher hill
Shifting and sweetly calling
Sifting and mentally trawling
Rebuild and regulate
Review and recreate
Mathematically precise
React, evolve, entice
Regroup then dissipate

Annoy exasperate
Linked hands and strolling through
Locked horns with abject crew
Winging and heading blind
With nothing left behind
