

# Bitch (Alternative Version)

## Dope

There's something about the way we fit  
There's something about this psycho trip  
There's something about the way we groove  
Something's got me and I just can't seem to choose I want you  
But I hate you The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
So I contemplate  
The one I love I hate  
But the sex is great  
There's something about the way we slide  
There's something about this psycho ride  
There's something about the things we do  
Something's got me and I just can't seem to choose I want you  
But I hate you The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
So I contemplate  
The one I love I hate  
But the sex is great One, two, fuck you  
Never say no  
Ready to go  
We're out of control  
But I can't let you ' cant let you go! There's something about the way we fit  
There's something about this psycho bitch The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
And I could suffocate  
The one I love I hate  
But the sex is great I love to hate you,  
You know I love to hate you,  
You know I love to hate you,  
You know I love to hate you,  
Hate you,  
Hate you,

Bitch.
