

# Will the Guns Come Out

[Hanni El Khatib](#)

Will the guns come out, out, out  
Oh will the guns come out and play today  
Oh will the guns come out, out, out  
Oh will the guns come out and play today  
Oh will the guns come out, out, out  
Oh will the guns come out and play today  
Will the guns come out, out, out  
Oh will the guns come out and play today  
Will you lose that job that you don't love  
Or the lord come down and save your fate  
Will your woman go and cheat behind your back  
And will your best friend lie right to your face  
Will you put down money that you don't have  
Will you go and gamble that life away  
Will you lose that love that you always had  
And they people you look up to every day  
Oh will the guns come out, out, out  
Oh will the guns come out and play today  
Oh will the guns come out, out, out  
Oh will the guns come out and play today  
Oh will the guns come out, out, out  
Oh will the guns come out and play today  
Oh will the guns come out, out, out  
Oh will the guns come out and play today
