

# Peacoat

## Stone Temple Pilots

You love me more (?)  
Cause you can't imagine me as someone old  
But in the moment of sinless embrace  
Your eyes stare right through me to the back of my face I sleep all day  
You're the cause of pain  
We're always good on the road  
Now you were my favorite show  
As long as buses were rolling along  
The destination's unknown Talks of our connection was the way it began  
Necessary dope but it was straight obsession  
Couldn't sleep it out, but now who needs sleep?  
Now it was 6 months later, it was,  
Well, you know  
I sleep all day  
You're the price I paid  
We're always good on the road  
Now you were my favorite show  
As long as buses were rolling along  
The destination's unknown
