

Fake Butt Busta

Troy Ave

You can do your hair and your make-up
But I don't want no girl with no fake butt
And you can look like shit when we wake-up
But I don't want no girl with no fake butt
And you ain't even got a hooker stake-up
I don't want no girl with no fake butt
I know you want to push it as a blade but
I don't want no girl with no fake butt Fake butt busta

We see you, we know you

We see you, we know you

Fake butt busta

We see you, we know you

We see you, we know you

Fake butt busta

We see you, we know you

We see you, we know you

Fake butt busta

We see you, we know you

We know you

Shouts to all my bitches with the real hair

Stylin' on them broads with the fake hair

And even if you got a little cake there

Then you better than them hoes with the fake rear

It's a little jelly, see you hate there

They might even tryin' to act like you're doin' better

But you gonna be the one with the smoke clear

Be with a real nigga

Cause he knows better You can do your hair and your make-up

But I don't want no girl with no fake butt

And you can look like shit when we wake-up

But I don't want no girl with no fake butt

And you ain't even got a hooker stake-up

I don't want no girl with no fake butt

I know you want to push it as a blade but

I don't want no girl with no fake butt

Fake butt busta

We see you, we know you

We see you, we know you

Fake butt busta

We see you, we know you

We see you, we know you

Fake butt busta

We see you, we know you
We see you, we know you
Fake butt busta
We see you, we know you
We know youIt's a lot of friends with fake jewels
20 15 'til we getting' you the blues
You ain't got a car and a crib too
Fake it 'til you make it a man, dog
Fake bootie broads if they get you
Lookin' like a 2 pic and a meatballYou can do your hair and your make-up
But I don't want no girl with no fake butt
And you can look like shit when we wake-up
But I don't want no girl with no fake butt
And you ain't even got a hooker stake-up
I don't want no girl with no fake butt
I know you want to push it as a blade but
I don't want no girl with no fake buttFake butt busta
We see you, we know you
We see you, we know you
Fake butt busta
We see you, we know you
We see you, we know you
Fake butt busta
We see you, we know you
We see you, we know you
Fake butt busta
We see you, we know you
We know you
