

Let It Ring

Mostack

Yawning

Boring, check the points and you're scoring
Said you're gonna ride but you're stalling, stalling
If it ain't about money why we warring?
Fuck the talking
And let it ring, lets make it ring-a-ring, lets let it ring
Why you stalling bro?
But you no go do a thing
Why she calling Mo
She make my WhatsApp bling
Let's let it ring-a-ring, a ring
Slow down, don't rush the ting
I'm with the mansdem and they just wan' buss the ting
Drive a gyal crazy, she hits the clutch and ting
It ain't just females, we don't trust the thing
You're with ballers, gorgeous
Me and gyal are talking
I'm the gyaldem sergeant
This is more than awkward
Lookin' for a bae like a car in parking
Tell that gyal go away, she was more than stalking
Drop the gyal loud, she was more than balling
And he thinks he took my girl, i was more than laughing
Wine it, dine it
Don't try the fire
Online they're hyping
And on the net they're lying, just let it ring
You got a strap but you no go do a thing
You're claim you trap but your line never ring
Aye, what's your number? Type it in
Ay this is fake, yawning, let me ring
Boring, check the points and you're scoring
Said you're gonna ride but you're stalling, stalling
If it ain't about money why we warring?
Fuck the talking
And let it ring, lets make it ring-a-ring, lets let it ring
Why you stalling bro?
But you no go do a thing
Why she calling Mo
She make my WhatsApp bling
Let's let it ring-a-ring, a ring
Speed up don't slow the ting

I'm with the mansdem and they just wan blow the ting
Why she asking for my name bro she knows the ting?
Yeah I'm with the Ooh-aah but don't show the ting
Are you're a driller? Are you a ganja man, a drug dealer
I let it ring-a-ring, i don't ring her
She dont rush the gyal but i fill her
Imma swing on her dreads like Godzilla
You got a medal my brudda but she a winner
I ain't with the devil but god knows I'm a sinner
Niggas ride out with the spinner, up in the dinger
I took her home you took her out for dinner
Just let it go, you got a strap but you no go let it blow
And I don't kiss and tell, I keep it sho
Anything we do I keep it on a low
Boring, check the points and you're scoring
Said you're gonna ride but you're stalling, stalling
If it ain't about money why we warring?
Fuck the talking
And let it ring, lets make it ring-a-ring, just let it ring
Why you stalling bro?
But you no go do a thing
Why she calling Mo
She make my WhatsApp bling
Let's let it ring-a-ring, a ring
Had to tell girl "Hold up", but she just want to call my phone up
Them niggers
Said they gon roll up, i waited all now they ain't showed up
Cah let it ring
Had to tell girl "Hold up", (stop the ting)
She just want to call my phone up
Them niggers
Said they gon roll up, i waited all now they ain't showed up
So let it ring
What's you ting?
It ain't a thing
Just let it ring
Ring-a-ring-a-ring
