

# Country Is

Tom T. Hall

(Tom T. Hall)Country is sittin' on the back porch  
Listen to the whippoorwills late in the day  
Country is mindin' your business  
Helpin' a stranger if he comes your way.Country is livin' in the city  
Knowin' your people knowin' your kind  
Country is what you'll make it  
Country is all in your mind.Country is workin' for a living  
Thinking your own thoughts lovin' your town  
Country is teachin' your children  
Find out what's right stand your ground.  
Country is a havin' the good times  
Listen to the music singin' your part  
Country is walking in the moonlight  
Country is all in your heart...
