

# Dancing Through the Wreckage

Pat Benatar

[Verse 1]

Walking through the veils of open fire  
Looking back at ghosts we left unnamed  
Breathing in the strength of my fathers  
Holding the hopeless while the fearless are standing afraid[Chorus 1]

Hallelujah

Hallelujah

Now I'm dancing through the wreckage left behind

Hallelujah

Hallelujah

I was raised to always hold my head up high

[Verse 2]

Now I'm rocking in a free world  
Never willed away without a fight  
Yeah, we'll survive the weeping of the sirens  
Even with the pain, beauty still remains inside[Chorus 2]

Hallelujah

Hallelujah

Yeah, I'm dancing through the wreckage left behind

Hallelujah

Hallelujah

Side by side, let's keep our hope alive[Bridge]

We're not standing, yeah, we're not standing alone

We're not standing, yeah, we're not standing alone

We're not standing, yeah, we're not standing alone

[Chorus 1]

Hallelujah

Hallelujah

Yeah, I'm dancing through the wreckage left behind

Hallelujah

Hallelujah

I was raised to always hold my head up high[Chorus 2]

Hallelujah

Hallelujah

Now I'm dancing through the wreckage left behind

Hallelujah

Hallelujah

Side by side, let's keep our hope alive[Outro]

Hallelujah

Hallelujah

We can be strong, there can be no wrong

Let them try me
