

# Little Bit of Feel Good

[Jamie Lidell](#)

Just the sound of your voice  
Drowning out all my noise  
When you call my name mysteriously  
All the source to let me see Little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray  
Please don't make my feel good go away Just a look of those eyes, cutting through my smokey  
skies  
And the parts of me that grow from you  
Cleared my vision so that I could see  
Little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray  
Please don't make my feel good go away Just the smell of you hair follows me everywhere  
Your sweet alchemy turned trouble to gold  
Transforming it all to let me know A little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray  
Please don't make my feel good go away Little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray  
Please don't make my feel good go away  
Please don't make my feel good go away  
Please don't make my feel good go away Please don't make it go away
