

# Lost Maps

## Marnie

I see no empathy, bitter warnings, and lies  
We are just ordinary people  
Get on your knees and pray  
I say Whatcha gonna do, where are you gonna go  
When the darkness closes on you  
Is there anybody out there looking for you?  
Do they know what you've been through? Gotta find the time, search the silence, open up your  
mind, survival's not a crime  
Is there anybody out there speaking the truth  
Don't believe what they tell you  
A sigh epidemic terrorizing our lives  
No more accomplice geography, we are lost maps to take  
I say Whatcha gonna do, where are you gonna go  
When the darkness closes on you  
Is there anybody out there looking for you?  
Do they know what you've been through? Gotta find the time, search the silence, open up your  
mind, survival's not a crime  
Is there anybody out there speaking the truth  
Don't believe what they tell you  
Whatcha gonna do, where are you gonna go  
When the darkness closes on you  
Is there anybody out there looking for you?  
Do they know what you've been through? Gotta find the time, search the silence, open up your  
mind, survival's not a crime  
Is there anybody out there speaking the truth  
Don't believe what they tell you
