

Young Blood Spills Tonight

Eyes Set to Kill

Sip my blood till there's no blood left to spill
From my neck embraced by a concealed grip I welcomed in my arms

Bruised by your love

Burned by your kiss

Is this true love?

Bruised by your love

Burned by your kiss Young blood spills tonight

This time the victim is you

Poison lips, the ones you kiss

I swear my love for you is true

Young blood spills

Now there I sing my deadly lullaby

Bruised by your love

Burned by your kiss

Is this true love?

Bruised by your love

Burned by your kiss

Is this true love?

Now there I sing my deadly lullaby

Now here I sing to hypnotize your body

Now there I sing my deadly lullaby

Now here I sing to hypnotize your body

We bled that night till drained

You drank me dry I did the same

We bleed this night till drained

This cold

We bled that night till drained

You drank me dry I did the same

We bleed this night till drained

This cold night
