Wish I Had an Angel

Nightwish

I wish I had an angel For one moment of love I wish I had your angel tonightDeep into a dying day I took a step outside an innocent heart Prepare to hate me fall when I may This night will hurt you like never beforeOld loves, they die hard Old lies, they die harderI wish I had an angel

For one moment of love I wish I had your angel

Your Virgin Mary undoneI'm in love with my lust

Burning angel wings to dust

I wish I had your angel tonight

I'm going down so frail and cruel

Drunken disguise changes all the rulesOld loves, they die hard

Old lies, they die harderI wish I had an angel

For one moment of love

I wish I had your angel

Your Virgin Mary undoneI'm in love with my lust

Burning angel wings to dust

I wish I had your angel tonightGreatest thrill, not to kill

But to have the prize of the night

Hypocrite, wanna be friend

13th disciple, who betrayed me for nothingLast dance, first kiss

Your touch, my bliss

Beauty always comes with dark thoughts

I wish I had an angel

For one moment of love

I wish I had your angel

Your Virgin Mary undone

I'm in love with my lust

Burning angel wings to dust

I wish I had your angel tonight

I wish I had an angel
