

Pendulum

Delain

FasterTime's moving onwards
Pushing and pulling me
Offering no release
Where do we go now
Why can't we pause and stayI'm hanging on the
Pendulum below the clock
Please swing slower, make it stop
Can we end the endings?
Can we make believe this will last forever?
I don't mind pretending
Still you push me
Still you push me
Faster
Time's moving onwards
turning the night to day
I'm jumping on the brakes
Where does this thing go
Why can't we pause and stayI'm just afraid to
Realise as I llok up
Who's getting off at the next stop
