

Genuine Only

Ne-Yo

We may struggle
We may even very well see hell's front gates
Don't think that you or I
Are above making mistakes
Said I'm gonna get on your damn nerves
And you gonna make me mad
But I know we'll survive all that
Cause love this good could never be that bad So may you never know the way
Way that it feels
Feels to be lonely
May you never know one day
When love isn't real
See this stuff to me is genuine only
See well maybe in a perfect world
We would get along perfectly
But seeing how this is real life
Sometimes we just wanna be
And I may make you say that you wanna leave
Never come back
But I know we'll survive all that
Cause love this good could never be that bad Said I ain't always gonna like you girl
Said you ain't always gonna like me girl
But you're the only one I want in this world
Let me sing it again
(I ain't always gonna like you girl)
Said I ain't always gonna like you girl
(And you ain't always gonna like me girl)
Said you ain't always gonna like me girl
(But I love you more than anything in this world)
But I love you more than anything in this world
May you never know the way
The way that it feels
Feels to be lonely
May you never know one day
When love isn't real
See this stuff to me is genuine only May you never know the way
To the way that it feels
Feels to be lonely
May you never know one day
When love isn't real
See this stuff to me is genuine only
