

# Made That Way

Jordan Davis

You're a vodka drink  
With two lemons and no lime  
You won't listen to the words  
But you'll sing 'em when they rhyme  
You're a Sunday backwards ball cap  
Drive too fast when it rains  
And you talk like you're from Charleston  
But you're just made that way Put together like an angel  
Tempted by your every tangle  
Bet you don't even know how  
I'm hanging on to every word you say  
Every touch damn near kills me  
Never thought that anybody  
Could make me want to slow down and stay  
But baby you're made that way  
You don't overthink  
So you're a complicated mess  
Not afraid to make mistakes  
Hold your cards close to the vest  
You're Christmas lights in August  
Won't wake up 'til 10 a.m  
And my heart pounds just like a kick drum  
Anytime that you walk in Put together like an angel  
Tempted by your every tangle  
Bet you don't even know how  
I'm hanging on to every word you say  
Every touch damn near kills me  
Never thought that anybody  
Could make me want to slow down and stay  
But baby you're made that way  
Everything falls into place  
As soon as I see your face  
Don't stop loving me  
Baby don't stop loving me Put together like an angel  
Tempted by your every tangle  
Bet you don't even know how  
I'm hanging on to every word you say  
Every touch damn near kills me  
Never thought that anybody  
Could make me want to slow down and stay  
Baby you're made that way Yeah you were made that way

Baby you were made that way
