

# Shades of Grey

## Delilah

Thought it was love, memories scope the lies  
That lead me far from here  
(Here, from here)  
Trying hard to silence all you say  
But you stay in my ear  
(You stay in my ear) Because everything you didn't want  
Became a part of me  
All the things you'd asked for  
I just could not see Everything you are  
(Everything you are)  
Everything you are  
Left a broken heartbeat  
Through the darker shades of grey  
I see beauty in the rain, gotta find myself  
(Hold me tears are blinding my eyes)  
Let me find myself  
(Go free walk alone in the night) Through the darker shades of grey  
I see beauty in the rain  
Heart stopped on the ground where I'm lying  
Called out to a stranger and die but it was you (Everything you didn't want became a part of me)  
Sleeping alone I cried out, for you in my dreams  
No matter how hard I try to change you  
You won't change with me Because everything you didn't want  
Became a part of me  
All the things you'd asked for  
I just could not see  
Everything you are  
(Everything you are)  
Everything you are  
Left a broken heartbeat Through the darker shades of grey  
I see beauty in the rain, gotta find myself  
(Hold me tears are blinding my eyes)  
Let me find myself  
(Go free walk alone in the night) Through the darker shades of grey  
I see beauty in the rain  
Heart stopped on the ground where I'm lying  
Called out to a stranger and die So let me run away, run away now  
I got to run away, run away now  
I'm gonna run away, run away now  
So let me run away, run away now Watch me run away, run away now  
I got to run away, run away now  
I'm gonna run away, run away now

So watch me run away, run away, run away Through the darker shades of grey  
I see beauty in the rain, gotta find myself  
(Hold me tears are blinding my eyes)  
Let me find myself  
(Go free walk alone in the night) Through the darker shades of grey  
I see beauty in the rain  
Heart stopped on the ground where I'm lying  
Called out to a stranger and die because it was you
