

Come Walk With Me

M.I.A.

There's a thousand ways to meet you now
There's a thousand ways to track you down
 Whatever you said and done
There's a thousand ways to make it count
 There is nothing that can touch me now
 You can't even break me down
 Every time you think of some
It's all ready been did and done Can I be your best friend?
 Can I make it to the end?
 Can you give me some of what
 You went and gave them?
 Come walk with me
 You ain't gotta shake it, just be with me
 You ain't gotta throw your hands in the air
 Cause tonight we ain't actin' like we don't care
It's cool it takes two, I'm gonna still fux with you
 Almost there Can I be your best friend?
 Can I make it to the end?
 Can you give me some of what
 You went and gave them?
 Come walk with me
 You ain't gotta shake it, just be with me
 You ain't gotta throw your hands in the air
 Cause tonight we ain't actin' like we don't care
It's cool it takes two, I'm gonna still fux with you There's a thousand ways to meet you now
 There's a thousand ways to track you down
 Whatever you said and done
 There's a thousand ways to make it count
 There is nothing that can touch me now
 You can't even break me down
 Every time you think of some
 It's all ready been did and done
 Tryna feel like what that feels like
 When someone makes you feel alright
 We can take the same path tonight
For the ride I got plenty of time Can I be your best friend?
 Can I make it to the end?
 Can you give me some of what
 You went and gave them?
 Come walk with me
 You ain't gotta shake it, just be with me
 You ain't gotta throw your hands in the air

Cause tonight we ain't actin' like we don't care
It's cool it takes two, I'm gonna still fux with you
What doesn't kill us, it makes us stronger
That's why my roads get longer and longer
My tracks are less traveled here to Uganda
Can we touch base just to discuss agenda?
Can I be your best friend?
Can I make it to the end?
Can you give me some of what
You went and gave them?
Come walk with me
You ain't gotta shake it, just be with me
You ain't gotta throw your hands in the air
Cause tonight we ain't actin' like we don't care
It's cool it takes two, I'm gonna still fux with you
