

Lost Boys

Ocean Park Standoff

Let's take the night off, and care about tomorrow
Let's take our minds off the things we can't control
Let's take our clothes off and jump into the ocean
Don't know where we're going
But it's somewhere out there We got our whole lives left
To make some memories
Drunk nights that we forget
I will remember them
We stole a tricycle
And then it all goes bad
Handcuffs behind my back
Yeah, I remember that Oh, we're not gonna grow up
Oh, least not till the sun's up
Let's take the night off, and care about tomorrow
Let's take our minds off the things we can't control
Let's take our clothes off and jump into the ocean
Don't know where we're going
But it's somewhere out there Let's take a night off, and care about tomorrow
Let's take our minds off the things we can't control
Let's take our clothes off and jump into the ocean
Don't know where we're going
But it's somewhere out there It's late but no light dead
Still time for Juliet
To hear my Romeo
Yell through the window Oh, we're not gonna grow up
Oh, least till not the sun's up
Let's take the night off, and care about tomorrow
Let's take our minds off the things we can't control
Let's take our clothes off and jump into the ocean
Don't know where we're going
But it's somewhere out there Let's take a night off, and care about tomorrow
Let's take our minds off the things we can't control
Let's take our clothes off and jump into the ocean
Don't know where we're going
But it's somewhere out there So late it's early now
Watching the moon go down
Holding your breath
Let it out, let it out Let's take the night off, and care about tomorrow
Let's take our minds off the things we can't control
Let's take our clothes off and jump into the ocean
Don't know where we're going
But it's somewhere out there Let's take a night off, and care about tomorrow

Let's take our minds off the things we can't control
Let's take our clothes off and jump into the ocean
Don't know where we're going
But it's somewhere out there We got our whole lives left
To make some memories, yeah
Those nights that we forget
I will remember this
We're not gonna grow up
Least not till the sun's up, oh
