

Lights Down Low

Jessie James Decker

You and me were sitting in the kitchen
6 PM, should I make a reservation?
No, let's stay home
'Cause I'm good with pancakes for dinner
I'm in your t-shirt and we're playing???
Oh, let's stay homeBaby turn the lights down low
We ain't got no place to go
Turn on the stereo
Barefoot, dance with me now, dance with me now
Turn on the Jess??? kiss me up against the wall
Like I'm so hungry for
'Cause this is our night
Gonna turn all the lights down low
Take it real, take it real, take it real slow
'Cause this is our night
Gonna turn all the lights down low
Run a batch and pop a little champagne
I, I love the way we celebrate
Oh, 'cause you know
That I'm good with watching old movies
Playing foot sea, I own the middle ships
Oh, let's gooBaby turn the lights down low
We ain't got no place to go
Turn on the stereo
Barefoot, dance with me now, dance with me now
Turn on the Jess??? kiss me up against the wall
Like I'm so hungry for
'Cause this is our night
Gonna turn all the lights down low
Take it real, take it real, take it real slow
'Cause this is our night
Gonna turn all the lights down low
Don't need to take my downtown
I'm having this fun when no one's around
We know what happens
When the lights go down, lights go down
The lights go down, the lights go downBaby turn the lights down low
We ain't got no place to go
Turn on the stereo
Barefoot, dance with me now, dance with me now
Turn on the Jess??? kiss me up against the wall
Like I'm so hungry for

'Cause this is our night
Gonna turn all the lights down low
Take it real, take it real, take it real slow

'Cause this is our night
Gonna turn all the lights down low
Take it real, take it real, take it real slow

'Cause this is our night
Gonna turn all the lights down low
