

# Type Slowly

## Pavement

    Sherri, you smell different  
Get up early in the bed -- for you morning comes so easy  
    Spells have been cast and the urge has been lost  
Snipers posted bills -- as they should -- of our midnight vacation  
    Back on the planet now -- I'm beginning to see just how  
    Echelon your dreams and they'll come true  
    Type slowly One of us is a cigar stand --  
and one of us is a lovely blue incandescent guillotine  
    The edge of creation is blurred and blushed  
Not a lot of room to grow inside this leather terrarium  
    People of the bay -- it is excruciatingly gray  
    Face the front when he comes for you  
    Type slowly  
    Cherish your memorized weakness  
Fashioned from a manifesto -- lady, I am no futurist  
    I'm my only critic, I  
    Trolls in the glen are consorting again  
The liberals say they don't exist but I know that they do  
Reinforce your literal ass -- hit it on the first or second pass  
    Frozen images, respected few  
    Type slowly
