

# A Better Believer

## Volbeat

Let her be she belongs to me  
And the moment comes when I no longer know your name  
A lonely maiden stands beyond  
infernial fire  
A prince awaits his destiny for all time  
Oh baby darling you will see  
Your blood belongs to him  
A soulless feast  
Reborn by the power of the darkness face  
A rebirth of his lover to avenge his hate  
oh baby darling you will see  
Your blood belongs to him a soulless feast  
Heaven betrayed you  
They said that her soul could not be saved  
A better believer  
The blood his life his sword sacrificed the cross  
Returning with a hunger by the power of love  
Oh baby darling you will see  
Your blood belongs to him a soulless feast  
Heaven betrayed you  
They said that her soul could not be saved  
A better believer  
Let her be she belongs to me  
And the moment comes when I no longer know your name
