

Fifteen Minutes

Breton

A lie, whatever happens you will know
It's everything you're taught it was
Thought it was, fall along the line
A lie, if nothing happened then it worked
They tell me it's a healthy sign
A healthy sign, a healthy sign aliveAs soon as backs were turned
The cracks return, return, return
Say you're asking them again yourself
As soon as backs were turned
The cracks return, return, return
Saves you asking them again yourself
A lie, whatever happens you will know
It's everything you're taught it was
Thought it was, fall along the line
A lie, if nothing happened then it worked
They tell me it's a healthy sign
A healthy sign, a healthy sign aliveAs soon as backs were turned
The cracks return, return, return
Say you're asking them again yourself
As soon as backs were turned
The cracks return, return, return
Saves you asking them again yourselfWhatever happens you will know
It's everything you're told it was
Thought it was, fall along the line
As soon as backs were turned
The cracks return, return, return
Saves you asking them again yourself
Return, return, return,
Return, return, return, return
Return, return, return, return, return
Return, return, return,
Return, return, return, return
Return, return, return, return, return
