

# Good Together

## HONNE

dream it all the time, girl  
Waking up warm in your arms and without a care  
Nobody ain't a problem, girl  
Just give me the time and the place, and I'll be there Oh oh  
[Pre-Chorus] Cause I would go the distance for you, baby I'd travel 'round the world if you  
would let me  
I'll meet you where the sun it always shines You're on my mind, all the time We are not wasting  
this  
Cause you and I we're good together, oh  
You always get me feeling better  
And I know you stay by my side  
You make me feel much better Cause girl we're good together  
And I tell you all too much, girl But I want you to know what you got is a natural gift  
I don't wrap you all the time, girl Don't wanna be rude but  
I would, do you catch my drift? Yeah [Pre-Chorus] Cause I would go the distance for you, baby  
I'd travel 'round the world if you would let me  
I'll meet you where the sun it always shines  
You're on my mind, all the time We are not wasting this  
Cause you and I we're good together, oh  
You always get me feeling better  
And I know you stay by my side  
You make me feel much better  
Cause girl we're good together  
Oh, you know I would go the distance  
Just to be amongst your presence  
Cause I am losing my mind  
Every second of time Keep wait  
Cause you and I we're good together, oh  
You always get me feeling better  
And I know you stay by my side  
You make me feel much better  
Cause girl we're good together  
Cause you and I we're good together, oh You always get me feeling better  
And I know you stay by my side  
You make me feel much better  
Cause girl we're good together, oh Stay by my side Stay by my side
