

# Collide

## Skillet

We have fallen  
We have fallen again tonight  
Where do we go from here  
When they're tearing down our lives? When all they want is  
When all they want is, for us to live in fear  
How long can we hold on?  
Can we hold on, hold on? There's something deep inside  
That keeps my faith alive  
When all you can do  
Is hide from the fear  
That's deep inside of you  
Something, something, something  
Something, something, something  
To hold me close when I don't know  
There's something deep inside  
That keeps my faith alive We are healing  
But it's killing us inside  
Can we take a chance  
When faith and fear collide? We can make it, step out and take it  
We can't live feeling so numb  
How long can we hold on?  
Can we hold on, hold on? There's something deep inside  
That keeps my faith alive  
When all you can do  
Is hide from the fear  
That's deep inside of you  
Something, something, something  
Something, something, something  
To hold me close when I don't know  
There's something deep inside  
That keeps my faith alive There's something deep inside  
That keeps my faith alive  
When all you can do  
Is hide from the fear  
That's deep inside of you  
Something, something, something  
Something, something, something  
To hold me close when I don't know  
There's something deep inside  
That keeps my faith alive
