

Butterfly (feat. Robert Glasper)

Bilal

How long do you crawl through the world?
Through the muck and mire you're used to
the rolling pain
made you strong
did you ever get tired to wait
in your shell anticipating
old soul
be born, again
you were born to fly
when you're not so shy
when you're ready
ready
angels smile
bloom to bloom
recreation
through and through
a colored blues
the morning dew
a summer kiss
butterfly
the struggle makes you beautiful
the struggle makes you fly
spread your wings and, be new again
butterfly
x2
