

Only You

Savage

?????? ??

When I really get nothing to do
Can't be true.

Only you

When I'm looking for somebody new
You're the clue.

Only change my mind

When I feel so blind

Then you make me see

Love is free.

Only you

When I look at your eyes in the blue

Love me too.

Only you

When your teardrops are lit by the moon

Laugh too soon.

Only change my mind

When I feel so blind

Then you make me see

Love is free.

Don't push me aside (my love's alive)

Don't leave me to die (you will survive)

You hold me so tight (turn off the light)

It all seems so right...

Only you

When I really got nothing to do

Can't be true.

Only you

When I look at your eyes in the blue

Love me too.

Only change my mind

When I feel so blind

Then you make me see

Love is free.

Don't push me aside (my love's alive)

Don't leave me to die (you will survive)

You hold me so tight (turn off the light)

It all seems so right...

Don't push me aside (my love's alive)

Don't leave me to die (you will survive)

You hold me so tight (turn off the light)

It all seems so right...

Don't push me aside (my love's alive)
Don't leave me to die (you will survive)
You hold me so tight (turn off the light)
It all seems so right...

Don't push me aside (my love's alive)
Don't leave me to die (you will survive)
You hold me so tight (turn off the light)
It all seems so right...
