

Malibu Nights

LANY

[Verse 1]

There's no reason, there's no rhyme
I found myself blindsided by
A feeling that I've never known
I'm dealing with it on my own
Phone is quiet, walls are bare
I drink myself to sleep, who cares?
No one even has to know
I'm dealing with it on my own [Chorus]
I've got way too much time to be this hurt
Somebody help, it's getting worse
What do you do with a broken heart?
Once the light fades, everything is dark
Way too much whiskey in my blood
I feel my body giving up
Can I hold on for another night?
What do I do with all this time?

[Verse 2]

Every thought's when it gets late
Put me in a fragile state
I wish I wasn't going home
Dealing with it on my own
I'm praying but it's not enough
I'm done, I don't believe in love
Learning how to let it go
Dealing with it on my own [Chorus]
I've got way too much time to be this hurt
Somebody help, it's getting worse
What do you do with a broken heart?
Once the light fades, everything is dark
Way too much whiskey in my blood
I feel my body giving up
Can I hold on for another night?
What do I do with all this time? Yeah

[Refrain]

I drive circles under street lights
Nothing seems to clear my mind
I can't forget
It's inside my head, so
I drive, chasing Malibu nights
Nothing seems to heal my mind
I can't forget [Chorus]

I've got way too much time to be this hurt
Somebody help, it's getting worse
What do you do with a broken heart?
Once the light fades, everything is dark
Way too much whiskey in my blood
I feel my body giving up
Can I hold on for another night?
What do I do with all this time? Yeah[Refrain]
I drive circles under street lights
Nothing seems to clear my mind
I can't forget
It's inside my head, so
I drive, chasing Malibu nights
Nothing seems to heal my mind
I can't forget
(It's inside my head, so)
I drive, chasing Malibu nights
Hey, hey, na-na
