

The Blinding (feat. Travis Scott)

Jay Electronica

[Swizz Beats]

This shit make you wanna talk crazy, crazy, crazy, I'm tryin' to
Kayfa ?al-uk? Kayfa ?al-uk,?habibi?[J A Y E L E C T R O N I C A & JAY-Z]

Once?upon a time?there was a likkle yout, the?cub of a lion

Stored away captive a long way home from Zion

The dove Prince sang about in "Purple Rain" cryin'

'Til the midget you heard tell of on his shoulders of the giant

Listen I named my son, sir, so you gotta call my son, "Sir"

That boy already knighted, he ain't even out his romper

You speakin' on the kingdom, you better watch your tongue, sir

I send you where you never been, you forget where I'm from, sir

That gossip bout some bald heads, who got shit out the gun, sir

I'm brazy, I'm so brazen, I'm "Raisin in the Sun" sir

You can catch this broad daylight, you know the kingdom come, sir

That wheel inside the wheel a half a mile in circumference

It's the return of the Mahdi, it's the return of the Akhis

It's the return of lost and found tribe of Shabazz the Annunakis

It's the return of Mr Shakur spittin' out phlegm at paparazzi

That's my new style

[Travis Scott]

Blinding (Hit-Boy!)

Blinding by the light

See the stars and our sun[J A Y E L E C T R O N I C A & JAY-Z]

The gift that keeps givin' like Babushka

Kush crushed up in the studio, rollin' K push up

Extra, extra, it's mister headlines

Who signed every contract and missed the deadlines

40 days, 40 nights, tryna live up to the hype

It's the road less traveled, it's the one who missed the flights

Hov hit me up like, "What, you scared of heights?"

Know you sister tired of workin', gotta do her something nice"

I'm like, "Don't he know I stay up for Fallon late nights?"

She need bread, she need rice, she need threads, she need ice

Either tell it to my bank account or say it to the dice

When I lay down in my bed it's like my head in the vice

When I look inside the mirror all I see is flaws

When I look inside the mural all I see is walls

And the wee hours of night, tryna squeeze out bars

Bismillah, just so y'all could pick me apart?

[Travis Scott]
