

Resin

Astronoid

The thought of having been alone
I have no answers
The comfort of my waves unfold
I search for nothing
So I will sing one more song
One more song
I have been gone far too long
Far too long
So nothing seems to be for real
No need for answers
Too scared of thinking for ourselves
No need to worry
So I will sing one more song
One more song
I have been gone far too long
Far too long
...Solo...
Descend deeper into heaven
A skewed vision of what's happened
Descend deeper into heaven
A skewed vision of what's happened
Haven't we all had enough?
Scared and numb
Pieces are scattered and gone
No
Haven't we all had enough?
Scared and numb
Pieces are scattered and gone
