

Paris On a Sunny Day

Prince Royce

Another flight to paradise, but it's too far from home
The perfect weather's nice, but it's not where I belong, no oh
I know this is the life that I signed up for, but I don't need another
stamp on my passport to know where I'm going
Cus I'd rather be nowhere with you, no oh
Know it all around me, telling me what I need, they don't
know enough about me
I know you're probably worried, so girl I'll try to hurry, right
back to you, love that's all I want, (huuhh)
I don't wanna let another plane steal me away, no
I don't need to see another few to know, what I have
there when I'm with you, even on sunny days
(sunny days)
Paris don't compare to your smile, even on sunny days
(sunny days)
Paris don't compare to your smile
Livin' outta duffle bags gets real old, real fast
Soon as I get far enough, I will come right back, right back
to you
Know it all around me, telling me what I need, they don't know enough about me
I know you're probably worried, so girl I'll try to hurry, right
back to you, love that's all I want, (huuhh)
I don't wanna let another plane steal me away, no
I don't need to see another few to know, what I have
there when I'm with you, another hotel room, with no one
there the end of the night, you'd be here with me if I could
have it my way
Paris don't compare to your smile, even on sunny days
(sunny days)
Paris don't compare to your smile, even on sunny days (sunny days)
Paris don't compare to your smile
Tell em' keep the beaches, the pent house sweets, and I
would be the richest if you're with me, girl I'm on my way
home to see your face, anywhere with my loves, my
favorite place, sunrises in your eyes and sunsets on me, nothing, nowhere, nobody can measure
your beauty
So you must be where I'm supposed to be, (huuhh)
Cus I don't wanna let another plane take me away
I don't have to see another few to know, what I have
there when I'm with you, another hotel room, with no one
there the end of the night, you'd be here with me if I could
have it my way

Cus Paris don't compare to your smile, even on sunny days
(sunny days)

Paris don't compare to your smile, even on sunny days
(sunny days)

Paris don't compare to your smile (huuhh)
