

Run

COIN

Slip back out and stare at the ground
With your face to the ground
Love the matter never seen to push you in
Call the television evangelist
Tell them all to grab another arm to twist this time
And if you think that you might commit
Well you wanna fool me but you don't really know
Something tells me that you're never gonna
stop to do what you want
Don't you tell me
That you never really thought,
Maybe we can RUN,
Maybe we can RUN,
Maybe we can RUN
Pick a fight, set the house on fire
With bombs in your eyes
Well the matter never seem to make you afraid
Hit the ground runnin Los Angeles
Find another naive on the twist
And if you're thinking that you'd like to quit
That's fine, you never wanted it anyway
Something tells me that you're never gonna stop to do
what you want
Don't you tell me
That you never really thought,
Maybe we can RUN,
Maybe we can RUN,
Maybe we can RUN
Oh, don't stop, don't stop
We'll never get closer
Roll down roof tops
Shoulder to shoulder
Something tells me that you're never gonna stop to do what you want
Don't you tell me
That you never really thought,
Maybe we can RUN,
Maybe we can RUN,
Maybe we can RUN
