

# Sharin' the Moonshine

## Sawyer Brown

There ain't nothin' that'll rattle your chain  
Like the top laid back on a Chevrolet  
And the things the midnight makes you say  
When you fall in love  
And the sundown brings a whole new world  
Of good time boys and late night girls  
It takes your breath - it starts to swirl  
The other stars above. So, let's share in the moonshine  
Yeah, we'll share in the moonshine  
Yeah, we'll share in the moonshine  
On a hot summer night  
When the stars come out and start to play  
The magic melts the blue away  
And at the end of every day  
There's a night-time jubilee  
And for the lifetime lover - you can't miss  
When it starts in the evenin' with a gentle kiss  
And old man Cupid can't resist  
It's a twilight mystery So let's share in the moonshine  
Yeah we'll share in the moonshine  
Yeah we'll share in the moonshine  
On a hot summer night Oh when the wind is still  
And the stars are over here  
And we'll cruise till it's right  
On a hot summer night  
So let's share in the moonshine  
Yeah we'll share in the moonshine  
We'll share in the moonshine  
On a hot summer night  
On a hot summer night  
On a hot summer night  
On a hot summer night  
On a hot summer night  
Whooooo
