

# Hole

## Hundredth

Time, dissolving me  
Forget, forget about the pain  
Just long enough for your shadowplay  
And we're all wrapped up  
Passing through the grain  
Compose, you know  
Feel it out but never let it show  
Compose, you know  
You'll never find enough to fill the hole  
Enough to fill the hole  
Enough to fill the hole  
Climb up to see nothing  
Throw everything away  
Open up, shed yourself of shame  
Anything to get your skin in the game  
Compose, you know  
Feel it out but never let it show  
Compose, you know  
You'll never find enough to fill the hole  
Come around to find it  
Feel it out, never let it show  
You'll never fill the hole  
You'll never fill the hole  
Compose, you know  
Feel it out but never let it show  
Compose, you know  
You'll never find enough to fill the hole
