

Hey D.J.

Lighter Shade of Brown

It's the monster
It can see and it knows what I'm waiting for
It's the monster
And even no, I should say no
I can't ignore
It's poison
Just once searching on love
It's poison
It kills me like venom
It's the monster
It can see and it knows what I'm waiting for
It's the monster
And even no, I should say no
I can't ignore
It's poison
Just once searching on love
It's poison
It kills me like venom
It's the monster
It can see and it knows what I'm waiting for
It's the monster
And even no, I should say no
I can't ignore
It's poison
Just once searching on love
It's poison
It kills me like venom
It's the monster
It can see and it knows what I'm waiting for
It's the monster
And even no, I should say no
I can't ignore
It's poison
Just once searching on love
It's poison
It kills me like venom
