## **Pray**

## **Bebe Rexha**

I pray to god
That he makes me feel alright
Hope he gets me through this one more night
I pray to god

He's like one too many drinks and my intuition starts to sink It's like ba da da da

Your shadows, they follow and they're haunting me Ba da da da

Where'd you go, this hollow soul is so lonelyI'm on my knees Begging pretty please

> I'm so love drunk stupid off these memories Mother Mary please have mercy over me

The sun came up and i can't believe you're over me

When I'm hung over you

When I'm hung over you

I swear to god

That I won't do this again

I already wasted all my sins

I swear to god

I'm so sick of what you do but I'll never get enough of you It's like ba da da da

Your shadows, they follow and they're haunting me Ba da da da

Where'd you go, this hollow soul is so lonelyI'm on my knees Begging pretty please

I'm so love drunk stupid off these memories Mother Mary please have mercy over me The sun came up and i can't believe you're over me

When I'm hung over you

When I'm hung over you

I swear to god

When I'm hung over you, you, you

You, you, youI'm on my knees

Begging pretty please

I'm so love drunk stupid off these memories Mother Mary please have mercy over me

## The sun came up and i can't believe you're over me When I'm hung over you When I'm hung over youI swear to god

I swear to god

When I'm hung over
